BREAKFAST.
"By a thorough knowledge of the natural laws
which govern the operations of digestion and nutri-
tion, and by a careful application of the fine
properties of well selected Cocoa, Mr. Epps has
prepared our breakfast tables with a delicious
beverage which has been used by many heavy
doctors' bills. It is by the judicious use of such
articles of diet that a constitution may be gradually
built up until strong enough to resist every
tendency to disease. Hundreds of subtle man-
dies are floating around us ready to attack where-
ever there is a weak point. We may escape many
a fatal shaft by keeping ourselves well fortified
with pure blood and a properly nourished frame."
